

LUTHFI ARZAKI

UI/UX Designer

Insurance Technology • Health-Tech • Enterprise Systems

luthfizaki43@gmail.com | <https://lyzaki.my.id>

PROFESSIONAL SUMMARY

Product Designer with over 3 years of experience specializing in Insurance Technology, Health-Tech, and Enterprise Systems. Skilled in transforming complex business requirements into intuitive, evidence-based user experiences through product architecture, data analytics, and user-centered design. Adept at leveraging modern, AI-integrated workflows to accelerate design-to-development cycles. Proven track record of collaborating closely with cross-functional engineering and business teams to deliver scalable, high-impact digital solutions from discovery to implementation.

CORE COMPETENCIES

- **Product Design:** UX Design, UI Design, Design System, Product Thinking
- **Collaboration:** Stakeholder Management, Cross-functional Collaboration, Developer Handoff
- **Domain Expertise:** Insurance Technology, Health-Tech, Enterprise Systems

PROFESSIONAL EXPERIENCE

PT. SELERIS MEDITEKNO INTERNASIONAL

UI/UX Designer | Nov 2023 – Present

- Designed end-to-end digital experiences for Insurance Technology, Health-Tech, and Enterprise platforms on both web and mobile.
- Spearheaded the creation of operational dashboards, reporting modules, and monitoring

systems, significantly improving business visibility and workflow efficiency.

- Developed scalable design components and maintained a unified design system to ensure consistent user experiences across multiple product lines.
- Translated complex workflows for underwriting, employee benefits, and healthcare into intuitive user flows, wireframes, and high-fidelity prototypes.
- Partnered directly with Frontend and Backend Engineers, QA Teams, and Business Stakeholders throughout the product lifecycle to ensure design feasibility and seamless implementation.
- Conducted rigorous design reviews and facilitated smooth developer handoffs, leveraging structured documentation and modern design-to-code plugins.

PT. TRI NINDYA UTAMA

UI Designer | Mar 2022 – Aug 2022

- Designed enterprise dashboard interfaces and internal monitoring systems with a strong focus on usability, readability, and information hierarchy.
- Improved navigation structures and interaction patterns, directly enhancing the overall user experience and task completion rates for internal users.
- Developed comprehensive visual assets and user interface concepts for company websites and digital platforms.
- Collaborated closely with project management teams to ensure design consistency and readiness for engineering implementation.

Quality Assurance Intern | Mar 2022 – Aug 2022

- Created detailed test scenarios and acceptance criteria for web-based applications to ensure product quality prior to launch.
- Conducted comprehensive User Acceptance Testing (UAT) and accurately documented technical issues for the development team.

PT. ASURANSI JIWA RELIANCE INDONESIA

Data Entry | Jun 2019 – Aug 2019

- Assisted in the digitization of critical insurance documents utilizing OCR technology, enhancing data accessibility and streamlining operational efficiency.

PT. AZIMUTH SOLUTION

Front-End Developer | Jan 2018 – Mar 2018

- Developed responsive and accessible web interfaces using HTML, CSS, Laravel, and Materialize CSS based on business and user requirements.
- Bridged the gap between design and technical implementation by closely collaborating with backend developers during testing and deployment processes.

FEATURED PROJECTS

- **Seleris Superapp** — An integrated enterprise superapp ecosystem combining multiple healthcare, insurance, and operational applications into a single, unified digital platform.
- **Seleris Care** — Comprehensive health-tech platform focusing on digital healthcare services and health monitoring.
- **MyMedix** — Digital healthcare application designed for health scanning and user wellness tracking.
- **e-HD** — An integrated enterprise platform combining healthcare and insurance ecosystems.
- **FLEXA** — Gen-Z-centric insurance platform incorporating gamification to drive user engagement.
- **Sentris Attendance** — Internal employee attendance and workforce management application.
- **LMS Improvement** — End-to-end UX redesign project aimed at optimizing an educational platform.
- **Student Complaint Service** — University service platform redesign to streamline issue

resolution and reporting.

EDUCATION

Universitas Negeri Jakarta

Bachelor Degree — Informatics Engineering Education (2019–2023)

CERTIFICATIONS & AWARDS

- **1st Place** — ISC UI/UX Competition (2023)
- **Finalist** — Technifest National UI/UX Competition (2022)
- **Best Mentee** — Becoming Professional UI/UX Designer Program
- **3rd Place** — Informatics Super Cup (2022)
- **Best Participant** — MSIB Batch 2 Alterra Academy

SKILLS & TOOLS

- **Design & Prototyping:** Figma, FigJam, Wireframing, High-Fidelity Prototyping
- **Research & Strategy:** User Research, Product Analytics, User Flows, Product Thinking
- **Modern Workflows:** AI Integrations (e.g., Claude-to-Figma, Base44, HTML-to-design plugins)
- **Technical:** HTML, CSS, Front-End Development principles
